

## **New School Protocols March 1, 2022**

We want to share updated information with parents on new school protocols based on guidance from the Hopkins County Health Department and the Kentucky Department of Public Health.

### **Students who test positive for Covid:**

- Isolate for 5 days and return to school for 5 days with mask if symptoms have resolved
- If a student remains symptomatic after Day 5, the student can remain at home and return after Day 10 (an excused absence will be provided).

### **Quarantining is no longer recommended for asymptomatic people.**

- If your student is sick, please keep your student home.
- Students who are symptomatic can be tested by the school nurse by making an appointment.
