(State course codes should have converted properly from STI, so this should not take too long.)

Click on each section.

In the Section tab, mark if the teacher is **Highly Qualified** for that subject.

Select **General** for the **Population ID** UNLESS it fits a Special Education category. If you are unsure about what types of students are served in this Special Education class, leave it blank.

This must be done for EACH section that is taught at your school.

If you expand each course, you will see the sections numbered below the course name.
